DOWNDRAFT

The open mesh table draws air and contaminants like grinding dust, welding fumes and smoke away from the operator.

Tables and booths are an efficient and economical way to protect workers from harmful dust and fumes caused by welding, grinding, polishing etc.

MODEL	MOTOR HP	AIR FLOW	VELOCITY	WORK SURFACE
DDT10-2430	3/4	1700 CFM	200 FPM	24" x 30"
